<a href="#">Historical note</a>	Today, the fascia sign over 'CP Interiors' shows the numbers 29-31 but the hairdresser to the east is, in fact, No.29. This was a cottage at least until the 1920s. It had a gable end onto the Market with two small windows. A 1945 picture shows the same roof so the present ridge roof and large first floor window are fairly recent changes carried out during the late 1940s or early 50s. Number 30, the eastern half of the furnishes, was Bingham's first telephone exchange, c.1920, run by Misses Gertie and Ethel Marriott. The western part, number 31, was a barber shop with accommodation above, run in the 1920s, by Harry Harwood. In a 1920s postcard, the barber's angled pole and signs for 'Shaving' and 'Public Telephone' can be clearly seen.
